## Objective

---

To become a skilled software engineer and gaining hands-on experience while contributing to meaningful projects, and becoming a valuable asset to the software development team.

## Education

---

- Poojya Dodappa Appa College of Engineering** 2019-2023  
Information Science and Engineering  
7.78
- Narayana PU College** 2017-2019  
PUC  
64.4%
- Vasavadatta Vidya Vihar** 2016-2017  
SSLC  
8.4

## Skills

---

- Technical skills- Core Java,SQL, HTML, CSS Javascript
- Personality traits - Communication Skills,Team Building Skills, Flexibility.

## Projects

---

- Development of an Institutional App by Adopting Android Play**
  - Developed a cross-platform mobile application (Java) leveraging a notification system (JDBC, MySQL) for real-time college communication between students, staff, and management.
  - Enhanced information dissemination through targeted notifications, ensuring timely updates for the college community.
  - Improved college portal accessibility by integrating a user-friendly interface (HTML, CSS) within the mobile app.
- Apartment Management System**
  - Architected and implemented a multi-tenant Java web application for apartment complex management (23 units + Tenants).
  - Developed a module for efficient handling of resident maintenance requests and automated monthly expense calculations for each unit.
  - Leveraged HTML, CSS, and a user-friendly interface to facilitate seamless resident-owner communication within the application.
  - Utilized SQL database for scalable data storage and retrieval to ensure system efficiency.

## Languages

---

- English,Kannada, Hindi.

## Coding Profile

---

- Hacker rank

## Certifications

---

- Certified by Tap Academy in Java Full Stack Web Development
- Certified by the Elite Tag by NPTEL in enhancing soft skills and personality traits by IIT Roorkee
